RESOLUTIONS

New Delhi, the 18th November 1953

No. 50(9)-Law(TM)/50.—The Government of India consider that the laws in India bearing upon Trade Marks and Merchandise Marks on goods need to be reviewed to see what changes and modifications are necessary, particularly to ensure effective remedies against the infringement of such marks and also against the sale of spurious goods. The commercial community has made many representations to Government on the point and has also raised the question of India acceding to the International Convention for the Protection of Industrial Property, 1883. After careful consideration the Government of India have decided to set up a Trade Marks Enquiry Committee with the following terms of reference:—

- (i) To consider and report whether any, and if so, what changes in the existing law and practice relating to Trade and Merchandise Marks are desirable;
- (ii) To consider particularly the provisions of the Trade Marks Act, 1940, and the Merchandise Marks Act, 1889, as well as of the Indian Penal Code and the Drugs Act, 1940 and other laws in their relation to infringement and fraudulent imitation of Trade Marks and Merchandise Marks, and to suggest ways and means of dealing more effectively with such anti-social activities;
- (iii) To recommend what measures should be taken to safeguard the registered owners of Indian marks in foreign countries;
- (iv) To examine the working of the Trade Marks Registry and the services rendered to the public and to recommend such changes as may appear desirable;
- (v) To consider and report on any other matter incidental to the administration of the law of Trade Marks and Merchandise Marks bearing on the development of Indian Trade and Industry.

2. The Committee will consist of:—

- (i) Shri K. S. Shavaksha, Bar-at-Law, Registrar of Trade Marks—(Chairman Ex-Officio).
- (ii) Shri Raman Bhair B. Amin—Member.
- (iii) Shri K. T. Chandy, Bar-at-Law—Member.
- (iv) Shri A. Alagiriswami—Secretary.

The services of Mr. C. F. Whyman, an expert from the United Kingdom, have been obtained by the Government of India to act as Adviser to the Committee.

3. The headquarters of the Committee will be at Bombay. The Committee may also visit such other places as it may consider essential for purposes of its enquiry. The report of the Committee should be submitted to the Government of India in the Ministry of Commerce and Industry not later than the end of February, 1954.

TARIFFS

New Delhi the 28th November 1953

No. 45(1)-T.B./53.—The Tariff Commission has submitted its Report on the continuance of protection to the Button Industry on the basis of an enquiry undertaken by it under Section 11(e) read with sections 13

and 15 of the Tariff Commission Act, 1951. Its recommendations are as follows:—

- (1) The plastic buttons industry needs protection against imports from Japan only. The protective duty on plastic buttons should, therefore, be fixed at 66-2/3 per cent. *ad valorem* or 12 annas per gross whichever is higher. This duty should remain in force upto 31st December, 1955.
- (2) No protection is required for the indigenous dumnut, mother-of-pearl or metal buttons against competition from the same varieties of buttons imported from any source.
- (3) Provided suitable administrative arrangements can be made, the duty paid on urea formaldehyde powder used in the production of plastic buttons which are exported should be refunded.
- (4) The Chief Research Officer, Central Inland Fisheries Research Station, Calcutta, should be requested to undertake an investigation into the biology of the living shells in the river beds and the factors affecting the thickness of the shell, and formulate a development programme.
- (5) The Directors of Industries in the States concerned should give necessary assistance to the metal button factories, which are mostly small and unorganised, in obtaining import licences for celluloid, polishing materials, nickel salts and nickel anodes.
- (6) Subject to the availability of foreign exchange, the nut button factories should be allowed to import their requirements of crozonuts.
- (7) The request of the dumnut button manufacturers for the grant of licences on an annual basis for the import of dumnuts deserves favourable consideration.
- (8) The manufacturers should approach the Indian Standards Institution and co-operate with it in evolving standard specifications for the different varieties of buttons.

2. Government accept recommendations (1) and (2) and steps are being taken to implement them.

3. As regards recommendation (3) it is open to the industry to apply under the provisions of the Sea Customs (Amendment) Ordinance, No. 3 of 1953, dated October 24, 1953.

4. Recommendations (4) to (7) have also been accepted by Government and steps will be taken to implement them as far as possible.

5. The attention of the Industry is invited to recommendation (8).

The actual working expenses during the year amounted to 53.64 per cent. of the income compared with 60.09 per cent. in the previous year.

The balances in the various reserve funds of the Port Trust at the end of the year were satisfactory.

During the year under review the Port Trust repaid the sterling loan of £ 3,30,000 raised in 1923.

The Pilotage Fund receipts and expenditure amounted to Rs. 3.56 lakhs and Rs. 3.74 lakhs respectively. The excess was covered by the opening balance of Rs. 1.90 lakhs which was available in the Fund on the 1st April 1952. The receipts, expenditure and closing balance of the Port Fund amounted to Rs. 6.71, Rs. 7.72 and Rs. 2 lakhs respectively.

(2) *Traffic.*—The total tonnage of imports and exports which passed through the Port during the year was imports 1,869,082 and exports 335,685 as against 1,854,682 and 300,138 respectively in the previous year. The trade as a whole thus showed a small increase during the year.

The tonnage of food grains imported through the Port during the year was 340,272 as against 489,028 of the previous year.

The tonnage of coal imported by sea during the year was 454,758 compared with 274,047 in the previous year.

The increase in exports was mainly due to larger exports of ores, scrap iron and groundnut oil viz. 129,352 tons, 24,368 tons and 43,738 tons as compared to 99,801 tons, 17 tons and 31,867 tons during 1951-52. The export of ores was the highest since 1947-48.

(3) *Value of trade.*—The value of the total trade of the Port during the year was about Rs. 14,781.05 lakhs as against Rs. 17,827.46 lakhs during the previous year.

(4) *Shipping.*—The number of vessels that entered the harbour during the year was 1097 against 1091 in the previous year and the total tonnage increased from 3,626,246 to 3,842,518. The average tonnage of each steamer or motor vessel was 3739.88.

(5) *Capital Works.*—Important works sanctioned or completed during the year were:

(e) A 1000-ton hopper barge "Sandpiper" has been acquired for	Rs. 10,90,000
(f) Wells with high level tanks have been sunk at a cost of	Rs. 78,000

The extension of the Sand Screen at an estimated cost of Rs. 16,00,000 has been stopped at 218'-0" as against the 400' originally planned, as further extension is found to be definitely unhelpful in tackling the sand accretion problem. Measures to combat the problem are under examination.
